

STAKEHOLDER ENGAGEMENT

North

WHY

As part of our Onward strategic plan, we're strengthening how it is we collaborate with people, their families, our employees, and community partners in co-designing the services people are interested in today. Stakeholder engagement allow us to lean in, listen, and work together as we value the contributions of people who experience disabilities and those close to them. In partnership with Helen Sanderson and Associates, Christian Horizons will learn what feedback people have on services and understand what they would like to see in the future.

PLEASE TAKE OUR SURVEY

You are important and we want to hear from you!

This summer, we are collecting feedback from all of the people who matter most to us – people who use our services, employees, family members and community partners. This is part of our Onward strategic plan. Our goal is to ensure services are based on partnerships that lead to a full life where we all work together.

One of the ways that we are gathering this feedback is through an online survey of just 6 questions. Your participation is anonymous, optional and very appreciated!

Please would you take 10 mins today to complete the survey by [clicking here](#). or scanning the code with your phone? Survey closes on September 17, 2021.
