Online Leadership Certificate Courses

UNDERSTANDING HUMAN BEHAVIOUR

The most successful people in this world have one thing in common: they understand people. You can too! With the DiSC Classic Profile® and a few simple steps, you can improve your communication with others. Build stronger working relationships and increase your performance in both your professional and personal life.

GETTING MORE LIFE OUT OF YOUR TIME

Make time for time management and it will be some of the best time you've ever spent. You will learn to increase your personal productivity to get more life out of your time. The Time Mastery Profile® will be used to analyze your current time use in 12 critical areas and you'll take home customized strategies to conquer procrastination, establish clear goals and much more.

LEADING PEOPLE TO EFFECTIVENESS

You will explore how you approach the most fundamental work of leaders: creating a vision, building alignment around that vision, and championing execution of the vision. In advance of the workshop you will be required to complete an online assessment - Everything DiSC® Work of Leaders™. You will be asked to provide a personal email address to complete this assessment.

TEAM BUILDING AND TEAM DIMENSIONS

A team challenge doesn't have to be challenging. Begin to appreciate the value of teamwork and understand synergy that a well-organized team creates. Highlights include: appreciating diversity, clarifying roles, stages of team development, and fostering characteristics of high performing teams.

MANAGING CONFLICT OPPORTUNITIES

Conflict is natural, and if embraced, has an untapped potential for igniting innovative change. If ignored and handled incorrectly, conflict can unleash a destructive force within your organization. Learn how to correctly respond to conflict and take advantage of the positive potential that exists when conflicts occur at work.

Course Fees: \$200 per course → Credit card payment is required at time of registration

Registration closes two weeks before each workshop
