

[February's Onward Huddle](#) celebrates the journey of Hillside Church in London, Ontario, as we began to partner with them in 2023. In November 2024, we hosted our second camp together! It's a wonderful story and one that can be replicated with many churches and community groups across our organization. Every community has its own distinct culture and strengths, just as every Karis employee and person supported has their own unique gifts. In coming together, we can host excellent camps and experiences that consistently live out Karis's core values in diverse and meaningful ways.

### **Making the Connection**
